

ACCESS FREE DIPLOMA CIVIL ENGINEERING II SEM MECHANI

Basics of Civil and Mechanical Engineering

This book addresses various aspects of civil and mechanical engineering field. We have included numerous neatly drawn figures and problems with solutions for the better understanding of the subject. The book is organized in six modules as per the syllabus of the first/second semester B.Tech. course under APJ Abdul Kalam Technological University, Kerala.

BASIC CIVIL AND MECHANICAL ENGINEERING.

“Materials Of Construction-II” is intended to be used as a text book for Second Semester Diploma in Civil Engineering and is designed for comprehensively covering all topics relevant the subject as per the Syllabus Prescribed by the Board of Technical Education, Karnataka. The book contains six chapters. Chapter 1 - Cement, manufacture of cements, types and tests on cement discussed. Chapter 2 & Chapter 3 - deals with aggregates, tests of aggregates, mortar and its types. Chapter 4 - in this chapter concept of cement concrete, types, method of placing, compacting, curing, discussed. Chapter 5 - in this chapter paints and its types discussed. Chapter 6 - Consists of new modern materials used in Civil Engineering works and its properties. At the end of each chapter, Points to remember, Fill up the blanks & Descriptive type questions is given. To enhance the utility of book, Multiple Choice Questions are given towards the end of the book along with answers. This should benefit the students preparing for Common Entrance Test. It is hoped that this book will be immense use to teachers and students of Polytechnics. I wish to express my gratitude to MEI Polytechnic, Bangalore for providing me an opportunity to bring out this text book. I am grateful to Sri Nitin S.Shah, M/s Sapna Book House (P) Ltd., Bangalore for publishing this book within a reasonable time. I am thankful to M/s Datalink, Bangalore for neatly typing the manuscript of this book. I also express my sincere thanks to Sri C.Chandrashekar, HOD (Civil) and colleagues for their encouragement. The readers are welcome to send their valuable comments and suggestions for further improvement of this book.

MATERIALS OF CONSTRUCTION - II

This book presents the fundamentals of Civil and Mechanical Engineering. Designed as per the revised and new core engineering paper of Basic Engineering I. this book is written in a style suitable for students just out of school.

Elements Of Civil & Mechanical Engineeri

Guide to RRB Junior Engineer Stage II Civil & Allied Engineering 3rd Edition covers all the 5 sections including the Technical Ability Section in detail. • The book covers the complete syllabus as prescribed in the latest notification. • The book is divided into 5 sections which are further divided into chapters which contains theory explaining the concepts involved followed by Practice Exercises. • The Technical section is divided into 13 chapters. • The book provides the Past 2015 & 2014 Solved questions at the end of each section. • The book is also very useful for the Section Engineering Exam.

Guide to RRB Junior Engineer Stage II Mechanical & Allied Engineering 3rd Edition

This book follows the polytechnic syllabus for mechanical branch. The subject is developed systematically, using simple language and a large number of figures. At the end of each chapter a set of problems are presented along with answers so that the students can check their ability to solve problems. To enhance the ability of students to answer semester questions and examinations, a set of descriptive type, fill in the blanks type, identifying true/ false type and multiple choice questions are also given. It is written in SI units. Notations used are as per Indian standard codes. It is hoped that students of civil engineering branch will find this book useful for overall understanding of the course and exam preparedness. KEY FEATURES • 100 per cent coverage of new syllabus • Emphasis on practice of numerical for guaranteed success in exams • Lucidity and simplicity maintained throughout • Nationally acclaimed author of over 40 books

Advanced Strength of Materials (For Polytechnic Students)

Guide to RRB Junior Engineer Stage II Civil & Allied Engineering 3rd Edition covers all the 5 sections including the Technical Ability Section in detail. • The book covers the complete syllabus as prescribed in the latest notification. • The book is divided into 5 sections which are further divided into chapters which contains theory explaining the concepts involved followed by Practice Exercises. • The Technical section is divided into 17 chapters. • The book provides the Past 2015 & 2014 Solved questions at the end of each section. • The book is also very useful for the Section Engineering Exam.

General Register

This E-Book of 'RRB-JE, Stage-2 Exam' for \"Civil Engineering\" is designed with Practice Questions from Technical Subjects, such as, Engineering Mechanics, Mechanics of Structures, Building Materials and Construction Technology, Theory of Structures, Design of Concrete Structures, Design of Steel Structures, Construction Management, Estimating & Costing, Hydraulics, Irrigation Engineering, Geotechnical Engineering, Surveying, Transportation and Bridge Engineering, Environment Engineering and CAD; and Question from Non-technical Subjects, like, General Awareness, Physics, Chemistry, Basics of Computers, and Basics of Environment & Pollution Control. Composition of this Book is quite different from the routine books available in market. It consist more calculative, qualitative and error-free content according to new pattern of the Exam.

People's Raj

This volume was collected by results of the International Conference on Recent Advances in Materials, Mechanical and Civil Engineering (ICRAMMCE-2017, 1-2nd June, 2017, Hyderabad, India) and presents readers with the results of recent researches and achievements in the fields of the structural materials, technologies of materials processing, building materials and technologies in the construction, applied mechanics and practice of design in the mechanical engineering. We hope that this collection will be useful for many specialists from area of mechanical engineering and construction.
