Appity Slap

The long title story is about a man whose life, in a sense, is a book. There are shelves in every room, packed with titles which Ambrose Ribbon has checked pedantically for mistakes of grammar and fact. Life for Ribbon, without his mother now, is lonely and obsessive, filled with psychoses and neuroses, with the ever-present possibility of a descent into violent madness. He still keeps his mother's dressing table exactly as she had left it, the wardrobe door always open so that her clothes can be seen inside, and her pink silk nightdress on the bed. There is one book too that he associates particularly with her - volume VIII of the Encyclopaedia Britannica, Piranha to Scurfy. It marked a very significant moment in their relationship. In the other stories, Ruth Rendell deals with a variety of themes, some macabre, some vengeful, some mysterious, all precisely observed. The second novella, High Mysterious Union, explores a strange, erotic universe in a dream-like corner of rural England, and illustrates very atmospherically what range Ruth Rendell has as a writer, expanding beyond her famous sphere of crime writing.

Cheshire Cheese Cat

' In the beginning, everything was alive. The smallest objects were endowed with beating hearts . . .' Having recalled his life through the story of his physical self in *Winter Journal*, internationally best-selling novelist Paul Auster now remembers the experience of his development from within, through the encounters of his interior self with the outer world, as well as through a selection of the revealing letters he sent to his first wife, acclaimed author Lydia Davis. An impressionistic portrait of a writer coming of age, *Report from the Interior* moves from Auster's baby's-eye view of the man in the moon to his childhood worship of the movie cowboy Buster Crabbe to the composition of his first poem at the age of nine to his dawning awareness of the injustices of American life. *Report from the Interior* charts Auster's moral, political and intellectual journey as he inches his way toward adulthood through the post-war fifties and into the turbulent 1960s. Paul Auster evokes the sounds, smells, and tactile sensations that marked his early life - and the many images that came at him, including moving images (he adored cartoons, he was in love with films), until, at its unique climax, the book breaks away from prose into pure imagery: the final section of *Report from the Interior* recapitulates the first three parts, told in an album of pictures. At once a story of the times and the story of the emerging consciousness of a renowned literary artist, this four-part work answers the challenge of autobiography in ways rarely, if ever, seen before.

Our Chemical Hearts

From the Pulitzer Prize-winning author of Battle Cry of Freedom, a powerful new reckoning with Jefferson Davis as military commander of the Confederacy "The best concise book we have on the subject... McPherson is... our most distinguished scholar of the Civil War era." —The New York Times Book Review History has not been kind to Jefferson Davis. Many Americans of his own time and in later generations

considered him an incompetent leader, not to mention a traitor. Not so, argues James M. McPherson. In *Embattled Rebel*, McPherson shows us that Davis might have been on the wrong side of history, but that it is too easy to diminish him because of his cause's failure. Gravely ill throughout much of the Civil War, Davis nevertheless shaped and articulated the principal policy of the Confederacy—the quest for independent nationhood—with clarity and force. He exercised a tenacious hands-on influence in the shaping of military strategy, and his close relationship with Robert E. Lee was one of the most effective military-civilian partnerships in history. Lucid and concise, *Embattled Rebel* presents a fresh perspective on the Civil War as seen from the desk of the South's commander in chief.

On the Concern's books are Temudjin Oh, an un-killable assassin who journeys between the peaks of Nepal, a version of Victorian London and the dark palaces of Venice; and a nameless, faceless torturer known only as the Philosopher. And then there's the renegade Mrs Mulverhill, who recruits rebels to her side; and Patient 8262, hiding out from a dirty past in a forgotten hospital ward. As these vivid, strange and sensuous worlds circle and collide, the implications of turning traitor to the Concern become horribly apparent, and an unstable universe is set on a dizzying course.
