installing a split air conditioner system

the wall mount

measure the distance between the holes of the wall

use a five millimeter masonry drill with a bosch hammer

prepare to drill the 65 millimeter hole in the wall

use a long masonry drill to pre-drill

start making the hole little by little

making sure the inner and outer holes are matching

connect all cables and wires to the indoor units

lay all the cables out

connecting the coolant lines to the inside unit

tighten the connections with the adapter and the torque

secure the insulation

hang the unit on the wall bracket plate
use some insulating foam
attached properly onto the wall the first 90 degree elbow
push the pipes over the bundle one after the other
cut a hole in the pipe
mark the holes for the bracket
put the outer unit on the bracket
run a separate wire from the house fuse box
close the wire terminal and the wall cord cover
hold the entire connector on the unit with a wrench
press onto the valve with a little piece of wire
turn the valve open
turn on the power with the separate fuse

Mini-Split Installation For Dummies - Complete Step By Step Guide!!! - Mini-Split Installation For Dummies - Complete Step By Step Guide!!! by Trial N' ERROR 973,930 views 4 years ago 28 minutes - Keep it simple! Basic DIY on how to install any mini split including what tools are needed. If you can use a drill, you can do this ...

start by drilling a pilot hole

bury the excess amount of this tubing in the wall

cut the lines to length

chopping off maybe seven or eight feet of pipe

put a little bit on the back side of the flare connection
make sure that my line is coming in at the proper angle
finish up the wiring at the outdoor compressor
install the trim plate
put in a pair of breakers
connect to your low pressure hose
closed the valve on the low side
get enough refrigerant in the line
let it sit for another five ten minutes
release all of the refrigerant in the system
open the valve
open this valve

How to Install a DIY Mini Split Air Conditioning and Heat Unit. MR COOL 24K Split Unit - How to Install a DIY Mini Split Air Conditioning and Heat Unit. MR COOL 24K Split Unit by Komar Project 546,835 views 3 years ago 15 minutes - #splitunit #airconditioner, #HVAC Music By:

<https://www.epidemicsound.com/sfx/>

clear out any landscaping
lay out where the actual outside unit the condenser
put down a couple of bags of gravel
using a three and a half inch masonry bit to punch
set the unit on the pad
marked the location of the mounting bolts
bent the line set connections on the air handler 90 degrees
hook up the line set
wrapped the connections with sound dampening pads
hooked up the drain hose
pull all the wire necessary for the installation of this unit
connect the breaker in the sub panel flip
hook up the thermostat plug in the mr cool smart controller
